

ASTE would like to focus on the best practices and best stories about teaching in Alaska. ASTE wants these movies to highlight the adventures and best practices we'd be proud to show new educators thinking of coming up to work in the Last Frontier.

WHAT WE ARE LOOKING FOR:

- great stories about the unique experiences and perspectives on teaching in alaska
- examples of best practices through the eyes and experiences of the teachers
- the truly heroic nature of what educators do across the state
- reflections by teachers on what they do **THEY** feel is making a difference
- reflections by students/parents on their teachers (positive pieces) on how they make or have made a difference
- unique cultural experiences in the school and/or in the village
- extracurricular activities related to education experiences
